

CAREY OLSEN

Cape Town

In 2013 we became the first offshore law firm to establish an office in Cape Town. Through this office our legal team is well positioned to provide clients based in Africa with direct access to our offshore legal services.

Clients instruct us on the full range of corporate, finance, investment funds, mergers and acquisitions, oil and gas, mining and infrastructure and renewable energy transactions.

Our local office acts as a convenient liaison point for our clients and our practices in Bermuda, the British Virgin Islands, the Cayman Islands, Guernsey and Jersey.
