

Shipping and Yacht Finance

Carey Olsen is a leading offshore law firm. We advise financial institutions, corporations and private clients on the laws of Bermuda, the British Virgin Islands, the Cayman Islands, Guernsey and Jersey from a network of nine international offices.

Our clients include global and local financial institutions, investment funds, private equity houses, multi-national corporations, public organisations, sovereign wealth funds, high net worth individuals, family offices, directors, trustees and private clients.

“You name it, they do it. They have a very good team.”

Chambers and Partners

We work alongside all of the major international law firms, accountancy firms and insolvency practitioners.

Our asset finance lawyers have a proven track record and expertise in structuring complex transactions for the financing of commercial vessels, yachts and other maritime assets.

Our shipping clients include banks and other financial institutions, owners and operators of commercial vessels and other maritime assets and owners of yachts.

We advise on all types of debt, lease and credit solutions drawing on our broad asset finance experience to assist with structuring and executing transactions.

“Commentators applaud the team’s performance across the full range of corporate and finance work.”

Chambers and Partners

In addition to advising on financing and sale and purchase transactions (including new builds), we assist with vessel and mortgage registration in our jurisdictions and can also support clients on regulatory issues, charterparties and maritime disputes.

Carey Olsen has a broad corporate and finance practice which works with clients across numerous industries globally to provide an experienced team of specialist finance lawyers across international finance centres.
