

Corporate

Corporate work is a cornerstone of our legal services offering. We have one of the largest corporate teams in the offshore legal market and we act for a diverse range of international and local organisations.

Our lawyers are skilled at creating new structures for commercial growth, advising on public and private mergers and acquisitions and completing exchange-based listings, as well as advising boards and shareholders.

“Carey Olsen is the best offshore law firm, both in terms of service and for technical capability and drafting.”

IFLR1000

The scale of our corporate practice enables us to structure the team according to our role, whether we are providing focused advice directly to our clients or acting in partnership with onshore advisers on complex international transactions. We match the level of resource to your requirements, expectations and deadlines, giving you the commercial agility to achieve your objectives.

“Provides big-firm, top-quality legal advice with a smaller firm’s client service and responsiveness.”

The Legal 500

We have a global approach and, alongside our corporate specialisms, we provide regulatory, employment, pensions, litigation, property and commercial advice. This integrated expertise enables us to form a broader team across legal disciplines and jurisdictions when necessary.
