

Carey Olsen in London

Our London office plays an important role in providing clients and contacts in the UK, Europe, the Middle East and Asia with direct access to our legal services.

The team provides a broad range of legal advice relating to the laws of the British Virgin Islands, the Cayman Islands, Guernsey and Jersey, including corporate and finance, investment funds, restructuring and insolvency, and dispute resolution and litigation.

We work alongside all of the major international law firms, accountancy firms and insolvency practitioners and our clients include global financial institutions, investment funds, private equity houses, multinational corporations, sovereign wealth funds and high net worth individuals.

Corporate and finance work is a cornerstone of our legal services offering and we have one of the largest teams in the offshore legal market. We act for a diverse range of international and local organisations and represent more LSE-listed clients than any other offshore law firm.

Our corporate team has extensive experience in mergers and acquisitions, including complex international cross-border transactions and high-profile acquisitions in our core jurisdictions.

Our banking and finance practice is experienced in international finance transactions and restructurings and establishing banks in our jurisdictions. Our lawyers are instructed by clients directly and also work closely with onshore legal teams.

We have a significant funds practice and we advise on all types of private, public, retail and listed funds, including open and closed-ended funds, limited partnerships, unit trusts and companies. Our breadth of experience sees us advise on the full spectrum of fund strategies and asset classes, from credit and debt funds to ESG funds.

In the dispute resolution space, we are widely recognised for our expertise in investment fund, corporate, commercial and civil disputes, banking, financial services and trusts and probate litigation, fraud and asset tracing claims, regulatory investigations and advisory work. The presence of experienced litigation lawyers in London enables us to provide a seamless, 'real time' service to an international client base.

Our restructuring and insolvency lawyers apply their knowledge of insolvency, corporate and banking law, regulatory guidance and litigation to the full spectrum of cross-border restructuring, recovery and insolvency matters.

To find out more about our services, please contact one of the partners listed overleaf.
